Working Together for Better Pensions

The IAPF Investment Committee

The Investment Committee will seek opportunities to deliver on IAPF's purpose by:

- **Identifying needs for policy or regulatory change** that benefit members of pension plans, and initiate proposals, reports, research or other suitable means to achieve change
- Identify **surveys and/or events** that provide members with insights, expertise, or networking opportunities and work with the IAPF team to deliver these events
- Where relevant, **respond to consultation papers** and assess the impact of changes in legislation/regulations
